The project platform: New infrastructures for Open Access books

INFRASTRUCTURE AND REVENUE MANAGEMENT FOR OPEN ACCESS MONOGRAPHS

- Range of Subscription packages
- Easily searchable shared OA-book catalogue
- ‘Open Book Collective’ (working title)
- Catalogue of participating scholar-led OA publishers and infrastructure
- Integration of multi-format open book metadata service (Thoth)
- Community governed: co-operative, non profit values
- CRM: financial routing through existing library and infrastructure consortia (JISC)
